#### **ABOUT IPEA**

The Indian Political Economy Association is a society registered under the Registration of Societies Act. A number of Social Scientists from many Universities, Research Institutions, Colleges, Journalists and Social Activists, after a long process of deliberations, decided to set up this Association. The Association came into formal existence in October 1989 and completes 29 years of establishment this year. The Association has over 500 life members from various parts of the country and has so far held 21 Annual Conferences in different parts of the country since its inception with the last conference held at IIT, New Delhi. Political Economy has been one of the richest intellectual traditions in Social Sciences, which offers a broad structural analysis of transformation of the economy and its constituencies in a comprehensive manner. It is a philosophical critique of society for its transformation towards a more just equal and humane society while pursuing goals of development and welfare. The approach, by its very nature, is multidisciplinary, transcending the traditional boundaries of individual branches of social sciences, extends even to art, literature and to socio-political movements. In explaining social phenomenon, political economy certainly offers a meaningful answer in meeting such challenges and Indian Political Economy Association aims to deliberate them. The Association strives to promote a fully democratic, participative and non-hierarchical academic culture and it has been publishing Alternative Economic Survey since 1992.
